

DIVORCE MEDIATION

“BE THE ARCHITECT OF YOUR OWN FUTURE”

Mediation is respectful

Divorce Mediation is a no-nonsense, direct, dignified approach for married couples to resolve all issues related to their separation or divorce. Husbands and wives engage in empowering, participatory sessions, on a schedule convenient to them, not set by a court.

The couples create their own solutions, without extensive use of costly lawyers and busy judges. Neutral mediators assure civil dialogue and facilitate lasting solutions, which can then be memorialized in a complete, legally binding separation agreement, which is the necessary basis for the new No-Fault Divorce available under New York State Law.

Mediation is all encompassing

MH Mediation can substantially reduce the cost of separation and divorce. Unlike some mediation groups, we are professionals, practicing attorneys, trained as mediators. Couples leave with a legally binding final separation agreement that defines their separate rights and obligations. Years of experience and specialized training enable us to assist couples in the resolution of all issues related to children, support arrangements and property distribution.

Mediation is child centered

Mediation supports parents' ongoing positive relationships with their children. When necessary, a durable co-parenting partnership plan is created, which is specifically tailored to provide long-term benefits to the children and their parents.

Make your own decisions with the help of MH Mediation.
